

GitHub hosting site of Isabel Hartnett B00105381

Link to GitHub site: (I was having issues getting my website to upload to GitHub to view it so the code from dream weaver and GitHub is slightly different because when I tried to upload the updated version it won't appear when I click on the link)-some images won't appear on GitHub site but others do and they have the same path so I'm unclear why this is happening but they appear in browsers and dream weaver.
